Quality EU certified vehicle equipment experience since 1993

METEC accessories – Built for the vehicles that keep the world moving!

Built to protect what matters

METEC products add an extra layer of protection to your vehicle — for your job, your business, and your peace of mind.

Stand out on the road

Boost visibility with premium stainless steel accessories that don't just look good — they get noticed.

Custom fit, factory look

METEC products fit your vehicle perfectly, using mainly OEM mounting points for a clean, factory-grade install.

Safety meets functional style

You don't have to choose between protection and good looks. METEC products offer both — in one seamless solution.

Nordic quality with experience

Backed by 30+ years of expertise and certified manufacturing, METEC products have earned the trust of professionals all over Europe.

For Your every job, every day

Whether you're hauling, towing, plowing, delivering, or building — METEC accessories are built to support your grind.

First line of defence.

Cattleguards engineered to protect your truck, ensuring safety and style in every situation.

Front-end solutions.

Protect your spoiler, expand your lighting – built both for utility and for style.

Ø70mm

Your style, Your choice

Not every vehicle, or driver, is the same. Select your perfect combination of finish, lighting and rugged durability.

BLACK EDITION

Two finishes, one standard

METEC products come in two distinct finishes. Choose sleek Black Edition for modern toughness or Classic Polished for timeless professionalism.

Built-in visibility, no hassle

Select METEC products feature integrated M-LED marker lights with tool-free clip-in mounting. No visible screws and the colors can be easily swapped via plug-and-play connectors.

Engineered for lifelong use

METEC products are crafted from AISI304 stainless steel for enduring strength, with aluminum strategically used for performance-critical components.

Proven protection, guaranteed

Backed by 30 years of stainless steel specialization, METEC guarantees surface treatments for 6 full years — triple the industry standard — because true durability shouldn't expire.

CLASSIC POLISHED

METEC accessories don't just upgrade your vehicle—they redefine standards. Because true quality shows in every curve, every surface, and every solution we engineer.

Add lights. See further.

Attach auxiliary lights, strobes, or LED bars – rugged roofbars built to handle the elements.
